MAYOR POND

Democratic Nominee for Governor,

J. P. IRISH FOR CONGRESS.

Virginia's Farmers' Alliance Mean Business.

Favorable Crop Prospects in Manitoba.

Democratic State Convention.

SAN JOSE (Cal.), Aug. 21.—The Democratic Convention met at 10 o'clock this morning. The crowd in attendance was greater than yesterday, and an intense interest was manifested in the coming ballots. Speculation as to the result was indulged in freely on all sides.

A roll-call for the third ballot on the gubernatorial nomination was ordered as soon as the Convention met.

The third ballot (being the first ballot this morning) was reported after a number of changes: Pond 230, Coleman 228, English 163, Paulsell 21.

The fourth roll-call was ordered amid great excitement in the Convention.

The roll-call when completed on the fourth ballot stood: Pond 425, Coleman 134, English 67, Paulsell 5.

Pond was declared nominated, and the Convention adjourned till 2 o'clock this afternoon.

The Third Congressional District Convention met at noon and nominated Colonel John P. Irish of Alameda for Congress.

R. F. Delvalle of Los Angeles was nominated for Lieutenant-Governor by acclamation.

To-Day's Races.
SARATOGA, Aug. 21.—The first race, one mile, King Crab won, Drizzle second, and Ben Harrison third. Time, 1:43 1/2.

The second race, six furlongs, Cleopatra won, National second, Monterey third. Time, 1:16 1/2.

The third race, mile and a sixteenth, Gymnast won, Ofaloe second, Maid of Orleans third. Time, 1:50 1/2.

The fourth race, a mile and three-sixteenths, Reclaire won, Sinaloa second, English third. Time, 2:13.

The fifth race, mile and a sixteenth, Lynn won, Satisfaction second, Bohemian third. Time, 1:53.

Not a Sectional Organization.
LYNCHBURG, Va., Aug. 21.—The State Farmers' Alliance yesterday adopted the following:

Resolved, That the State Farmers' Alliance of Virginia intend to grasp the hands of our Alliance brothers of the North, and are determined to hold together with locked shields in spite of all efforts to arouse sectional prejudices between us until the financial emancipation of the laborer and producer is accomplished.

Good Crop Prospects.
OTTAWA, Aug. 21.—Minister of the Interior Dewdney returned yesterday from a trip to the Pacific coast through Manitoba and the Northwest. He reports excellent crops, and an entire absence of frost, and says that business is brisk in anticipation of a big harvest.

Powder House Explosion.
CHICAGO, Aug. 21.—The powder house at Blue Island exploded to-day. Three persons were killed and several wounded.

A New and Fatal Disease.

By Associated Press.

St. Johns (Newfoundland), Aug. 20.—It is reported the inhabitants of fishing villages along the coast are dying by hundreds of an unknown epidemic. Nothing has so far proved a cure, nor has any alleviative been found. The disease marches from house to house, victim to victim, with nothing to stay its awful progress.

The first reports of the epidemic reached here two weeks ago on the arrival of the regular fortnightly steamer, which calls at several of the more important fishing stations on the French shore. The Captain reported to the health authorities that while touching at Lapole he was informed a strange epidemic had broken out in Coachman's Cove. The people thought it a virulent type of diphtheria, called "black throat."

There being no regular physician on the coast, nothing definite is known, except that not a single person so far attacked had recovered. Other peculiar features were that many cases of death ensued in thirty-six hours after the disease appeared and rapid putrefaction set in the moment life left the body. The population of Coachman's Cove is but a little over 150. Yet nearly half that number had died since the first outbreak. The disease has broken out in many other villages also.

Murdered by a Chinaman.
By Associated Press.

OBOLVILLE, Aug. 20.—Yesterday Coroner Guidry received information that there was the dead body of a man in a cabin on a ranch near Pentz, in this county, and an investigation was asked. The Coroner went to the place and found the body of a Frenchman named Louis Philippe Billard, aged 60, with indications that he had been murdered. On investigation it was found that he had seven wounds on the head, made by a sharp, heavy instrument. Circumstances pointed to a Chinaman, one of a crew of twenty, working on a ditch near by as the murderer, who was arrested and brought to town, and is now in jail.

It appears that this Chinaman had been stealing fruit and the deceased had trouble with him some time previous, and had expressed a fear that the Chinaman would do him harm.

Local Intelligence.
A Mysterious Disappearance.

Last evening Eddie Graff, who was living with his stepmother and sisters on Center street, went to his room about his usual hour of retiring, spread his rug for his little dog, and, after remaining there a short time, left the house and has not been heard from since. His people are utterly unable to understand why he should leave in that way, as none of them thought him to be dissatisfied, and as he was of age he could have gone at any time, with the best wishes of the entire family.

There is a message at the Western Union office for Bert R. Parker.

THE MOTHER'S HAND.
It Cannot be Excelled as Director and Polisher.

There is no instrument so efficient in producing the highest polish on wood or glass as to be compared with the human hand. Lenses, after every other appliance has exhausted its fertility, receive their finishing polish from the hand. Piano frames, after having been "filled" and sandpapered and "floated" with varnish, receive their final polish from the hand.

In the family the mother's hand is the great polisher. It keeps little faces and hands clean; it keeps little dresses and knickerbockers clean; it closes holes over knees and toes; it fills hungry mouths with wholesome and palatable food; it tucks in the sleeping children at night, and keeps the cold; it soothes weary limbs to rest; it binds up cuts and burned and bruised fingers; it holds the cooling draught to fevered lips; it gently closes the eyes that look upon the sun no more.

In a figure, the mother's hand polishes the minds and characters of her children. Her fingers point out the letters on the block, in the primer, the page in history, the noble idea to be attained, the far-off goal to be reached, the rocks to be shunned, the maelstroms to be avoided.

CELLULOID.
The Process of Its Manufacture Described.

The Scientific American says: The manner in which celluloid is made in France is as follows: A huge roll of paper is unwound slowly, and, while unwinding, is saturated with a mixture of five parts of sulphuric and two parts of nitric acid, which is carefully sprayed upon the paper. The effect of this bath is to change the cellulose in the paper into pyroxyline. The next process is the expelling of the excess of acid in the paper by pressure and its washing with plenty of water. It is then reduced to a pulp and bleached, after which it is strained, and then mixed with water to 20 to 40 per cent. of its weight in water. Then follows another mixing and grinding, after which the pulp is spread in thin sheets, which are put under enormous hydraulic pressure and squeezed until dry as tinder. These sheets are then put between heated rollers and come out in quite elastic strips, which are worked up into the various forms in which celluloid is made.

THE GREAT STRIKE

Likely to Extend to the West.

CONGRESSIONAL PROCEEDINGS.

The Quay Resolution To Be Taken Up To-morrow.

The Pennsylvania Prohibition Convention.

The New York Central Strike.

By Associated Press.

NEW YORK, Aug. 21.—Chief Sargent this morning said that a meeting of the Federation of Railroad Men will be held at Terre Haute on Saturday, with the undoubted result that a strike on the entire Vanderbilt system will be ordered. As he and his three associates had endorsed the action of the General Executive Board of the Knights of Labor, he thoroughly believed the Supreme Council of the Federation would sustain it. He also said the action of Webb last night in adhering so firmly to the stand taken rendered the action they had taken necessary. Webb's arbitrary method and utter refusal to arbitrate the situation made it useless to deal with him any longer.

Vice-President Webb this morning said he did not believe the impending strike would be nearly so gigantic as the Federation and the Knights of Labor would have people believe. Webb did not doubt the Supreme Council of the Federation would call out the men, but he was of the opinion that the number who would respond would not be so great after all.

A Stringent Money Market.
By Associated Press.

NEW YORK, Aug. 21.—The stringency in the money market to-day was sharper than it has been since the May panic of 1884. At the opening of the stock exchange the brokers who were long of stocks and had borrowed money on them, were glad to renew their loans at 20 per cent. per annum. Even this rate would not bring a renewal of the loan in many cases, and before 11 o'clock many borrowers received notices that their loans had been called in.

Brokers who bought stocks yesterday in anticipation of relief from the Treasury Department, tried to obtain funds to pay for their purchases, but were unable to do so, and a combined demand caused a large crowd to remain around the money post in the exchange all day. Early loans were made at 20 per cent., but the supply at this figure was soon exhausted and the rates moved up to 40, to 50, to 60, to 70, to 75, to 90, and before 1 o'clock the prevailing rate was 96 per cent., or equal to legal interest, and a premium of one-fourth per cent. per day.

Congressional Matters.
By Associated Press.

WASHINGTON, Aug. 21.—The Senate this morning, after spending some time in considering Plumb's resolution for prohibiting liquor selling or drinking in the Senate wing of the Capitol, took up the tariff bill. Nothing was said about Quay's "order of business" resolution, the debate on which was begun yesterday.

The failure to take up the Quay resolution this morning was due to a general desire for a party conference or caucus as to a line of action. It will likely be called up to-morrow.

HOUSE.
In the House Buchanan called up the bill for the adjustment of the accounts of laborers arising under the eight hour law, which was discussed a while and went over without action.

A Steamer Ashore.
By Associated Press.

FIRE ISLAND (N. Y.), Aug. 21.—Ashore at Jones Inlet, is the Hamburg-American line steamer Danis, Captain Scholty, from Hamburg for New York and Baltimore. She went ashore about 11 o'clock last night. She lies in an easy position.

The steamer now stands a chance of going to pieces in the storm now brewing. She has some emigrants aboard, and was due in New York to-day.

Can Settle It Ourselves.
By Associated Press.

NEW YORK, Aug. 20.—The Mail and Express says: We have imported less than half a million ounces of silver since the price has risen 25 cents an ounce, and the London price has been forced up to the highest figure known in twelve years. It does not look as if we really needed another international conference about silver, when we can so easily settle the matter ourselves without foreign assistance.

The Raun Investigation.

By Associated Press.

WASHINGTON, Aug. 21.—The Raun investigation was resumed this morning. Cooper, who made the charges, made a brief explanation of his position, after which Raun took the stand. The witness denied that any employee of the Pension Office, save himself, ever owned stock in the Refrigerator Company, and consequently the charge that employees had been promoted because of such ownership was false.

Cooper demanded to see the books of the company, but Raun refused to produce them. He was willing the members of the committee should inspect the stock books of the company, but not that it should go into the Record. Mr. Raun said Cooper gave to the press everything he got hold of, and had given the public documents entrusted to him for inspection to the Committee on Rules.

Cooper insisted on seeing the books himself, and upon the committee refusing, gathered up his books and papers and left the room. The committee then resumed the investigation on its own hook.

Another Reported Cyclone.
By Associated Press.

FORT WAYNE (Ind.), Aug. 21.—It is reported here that there was a cyclone early this morning which struck at a point six miles east of Fostoria, Ohio. The telegraph wires in that vicinity are all down and no particulars can be obtained. Fostoria is 80 miles east of this city, on the Nickel Plate Railroad.

Prohibition Convention.
HARRISBURG, Pa., Aug. 21.—State Prohibition Convention nominated C. W. Miller for Governor, Charles E. Hyatt for Lieut. Governor, and Wm. T. Dunn, Secretary of Internal Affairs.

TELEGRAPHIC BRIEVITIES.
Bar silver, 118 3/4.

There was a severe storm at Fostoria, Ohio, this morning, but no lives are reported lost.

BETTER THAN GOLD.
RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

PRICE BAKING POWDER CO., New York, Chicago, and San Francisco

A Little Cheeky.

An effort is being made to nominate Senator M. D. Foley of Eureka county for State Senator from Washoe, and it occurs to us as being a little cheeky, to say the least. Mr. Foley has interests here, it is true (he is a stockholder in the Water Works and the Nevada Bank, and is interested with Russell & Bradley in the English mill property), but if the Legislature should be convened to-morrow he would answer the roll-call as Eureka's Senator. What impels Senator Foley or Senator Foley's friends to precipitate his personal ambition on the people of this county the GAZETTE does not know or care, but we have no sympathy and but scant patience with the movement. He is reported as asking whom we have that is better qualified to represent us than he is. The question is a direct insult to this community. There are twenty men who would represent this county just as ably as Senator Foley, and who have lived here with us.

If the Republicans of Washoe cannot find an old and respected citizen whom they can trust to look after the county's interests then let them put up the gentleman from Eureka and elect him if they can. It is understood that the corporations want him "because he has always been so kind to the railroads." The managers are informed that the community has no fight with the railroad unless they invite one, so they had better keep their hands out of the pudding or they may get them burned. Can it be possible that the citizens of Washoe are to be hoodwinked into making a nomination that is distasteful to three-fourths of the people in the county because the would-be nominee has been "so kind to the railroads?" We mistake the sentiment if they do, and do not believe they are quite ready to make the sacrifice.

It is hard to please the old man of the Silver State; just now he is finding a good deal of fault with the men who signed a letter to Mr. Newlands asking him if he would accept the nomination for Governor or Congressman if tendered him. He is pleased to designate them as the "New Development party." It is refreshing to know that some one takes an interest in bringing the State out, even if there are but "nineteen." If the Silver State man would join forces with them and assist in the new development instead of tearing down he would be held in higher esteem both at home and abroad.

APPARENTLY the Central American question has now become a personal issue between Ezeta of Salvador and Barillas of Guatemala. Each requires the retirement of the other before signing the peace of protocol. Personal ambitions, says the Bulletin, have always demanded Central American politics and wars. Even if the interested republics should "fire" both aspirants, others would take their places, and perhaps further complicate the situation.

THE most noticeable thing about tornadoes of late years is their tendency eastward. They are becoming common east of the Appalachian range, having visited New York, New Jersey and New England, and now the Wyoming Valley is scourged. Old windfalls record their pre-historic passage in Ohio and in other States on the western slope of the Alleghenies, but it has been usually assumed that the Atlantic States were exempt.

A RICH silver discovery is reported in Minnesota. It is not likely to turn out bullion enough to materially affect the rising silver market. That will require a boom all over the argentiferous regions of the country.

R. L. HORTON, Lander's candidate for State Controller, should have a walkover if the name of J. F. Halleck is the only other one presented.

Low Politics.

Hon. Thomas Fitch, who, with ex-Congressman Warner of Ohio, traveled through the Atlantic States last winter and spring and enlightened the people on the silver question, has been a candidate for Congress from Nevada since early summer. He was led to believe that the Republican party would give him the nomination by acclamation, but now he begins to discover what many of his friends suspected some months ago—that he is not on the slate, and will not be the choice of the Convention, though he may be the choice of the people.

It is possible for Mr. Fitch to be elected from Nevada, or make the individual who defeats him pay dearly for the office. Let the Executive Committee of the Silver Convention nominate him and the Democrats endorse him, and if he is defeated he can rest assured that every vote of the majority against him will cost the man who receives it at least a twenty-dollar piece, [Silver State.]

We are satisfied that the suggestion made in the above does Mr. Fitch an injustice, and we only refer to it to call attention to the low tone which many of the newspapers of the State foster. The intimation that the successful candidate for Congress must pay dearly for the office, and that every vote of the majority will cost the man who receives it at least twenty dollars, is of a piece with the constant utterances of the press of this State, which have done so much to cast discredit upon it.

Such talk is demoralizing. It assumes that the use of money in obtaining votes is a legitimate, and even a desirable thing. It is safe to say that the Nevada newspapers have done more to smirch its fair name than all other influences combined.

We believe that the number of venal voters in Nevada has never been great, and that it has been constantly diminishing. We believe that a higher moral tone is being developed in this community as time goes on. We hope to see the present campaign conducted upon a high plane of decency, and that the struggle will be over the question as to what party and what candidate can do the most to advance the prosperity and well-being of the State. Let us have an end to this disgusting talk about the "sack."

A GOOD BEAR STORY.

Mrs. Brails, Her Cub, a Bull-Dog and Some Cattle Engaged in a Fight. A few days ago Charles and Robert Kiple, thrifty Monroe County farmers, brought up a lot of cattle on the Pocono plateau, writes a Scranton (Pa.) correspondent, and started to drive them to their farm in the neighborhood of Taunketown.

A brindled bull-dog accompanied them. Three miles south of Honser's mills the cattle came to a halt and partly turned around, and the men had all they could do to keep them from stampeding. After they had got the cattle headed right again they saw what had caused the scare. A few rods away an old she bear was sitting in the center of the road and on each side of her there was a cub, and all three were looking at the frightened cattle. The young men could not get the drove to budge from where they were, so they sent the dog ahead to drive the bear family out of the road. The dog bounded forward, and when the bears saw him coming they got down on all fours and stared at him, making no move to get out of the way. Instead of pitching at the old bear, the bull-dog grabbed one of the cubs and began to drag it toward the log fence, but he hadn't gone far when the squealing little brute brought the mother, who attacked the dog and made him let go. That waked the bull-dog up, and he whirled and got a hold on the old bear's flank. The cubs vanished like partridges, while their mother was raging and trying to shake the dog off; and for a moment the old bear and the dog had it hot and heavy from one side of the road to the other. Finally the bull-dog set his teeth in the bear's nose, and the noise and the efforts she made to fling him away excited the curiosity of the cattle to such a pitch that they set up a bellowing and went cantering toward the belligerents with heads and tails in the air. The young men hurried after the drove, intending to keep it on the move until it had passed the bear; but the ring-leaders halted as soon as they had reached the fighters. Just then the old bear shook the dog loose from her bleeding nose and threw him over the fence. She then started for the opposite side of the road, but the ring-leaders headed her off, and a moment later the whole herd was bellowing furiously and endeavoring to get a chance at the bear.

Then the dog returned and the cattle separated, when the canine again tackled the bear and got a broken back from one of her paws. Before the cattle had time to close up their ranks Charles Kiple dashed ahead of them and fired five revolver bullets into the bear's head. Then the young man whipped the drove into a run, and left the dead dog and the dead mother bear lying by the roadside.—Chicago News.

A Cure for Pneumonia. The following offers a good help for pneumonia: Take ten or twelve raw onions and chop fine, and put in a large spider over a hot fire; then add about the same quantity of rye meal and vinegar enough to form a thick paste; let it simmer five or ten minutes. In the meantime stir it thoroughly, then put it in a cotton bag large enough to cover the lungs, and apply to the chest as hot as the patient can bear; when this gets cool apply another, and thus continue repeating the poultice, and in a few hours the patient will be out of danger.

MISCELLANEOUS.

Make No Mistake

If you decide, from what you have heard of its cures and read of its merits, that you will take Hood's Sarsaparilla, do not be induced to buy something else which may be claimed to be "about the same" or "just as good." Remember that the sole reason for offering to get you to purchase some substitute is that more profit may be made. Firmly resist all inducements, and insist upon having just what you called for, Hood's Sarsaparilla. Then you will not be experimenting with a new article, for Hood's Sarsaparilla is Tried and True.

"In one store the clerk tried to induce me to buy their own instead of Hood's Sarsaparilla. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was, I had taken it, was perfectly satisfied with it, and did not want any other." Mrs. ELLA A. GORRY, 61 Terrace Street, Boston, Mass.

We Are All Taking It. "We could not be without Hood's Sarsaparilla. It is the best medicine we ever kept in the house. My family are all taking it." Mrs. J. M. BARRETT, San Joaquin and Fremont Streets, Stockton, Cal.

Hood's Sarsaparilla Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

NOTICES

Call for Sierra beer, the best at H. J. Thye's.

Ask for Schmidt & Co's. sarsaparilla and iron water and orange, the only genuine at H. J. Thye's.

For all kinds of the best stationery, inks of all kinds, pens, pencils, erasers and maulage, parrotize C. J. Brooks' variety store.

C. A. Thurston carries the best tobacco, both chewing and smoking; also the best brands of both imported and domestic cigars.

J. J. Becker's large patronage enables him to supply his customers with a schooner of beer, and a nicely cooked hot lunch for 12 1/2 cents.

Travelers from all parts of the country agree that the accommodations at the Nevada Hotel are as good as can be had in any town on the coast.

By patronizing the Arcade Hotel and Restaurant you will be made to realize that you are getting as good accommodations as are to be had in the town.

By handling nothing but first-class goods and being satisfied with a reasonable profit, has enabled E. C. Leadbetter to build up a lucrative grocery trade.

The Ladies Delighted

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effective in action on the kidneys, liver and bowels.

Reminiscence of the Johnstown Flood

Rev. H. L. Chapman, pastor of the M. E. Church, Johnstown, Pa., says: "Soon after the great flood, at a time when diarrhoea was quite prevalent I received a box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy sent me by the proprietors, at the suggestion of Hon. Wesley Reid, head of Des Moines. As soon as it became known that I had the medicine for free distribution there began a great run on it, which continued until it was about all gone. Every one, so far as I heard from them, testified to its virtues declaring it the best medicine for the purpose they had ever used. Those who got it started in around with their neighbors so that I am contented your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea but for all kinds of pain and uneasiness in the stomach and bowels. It has been regarded as the best medicine used here for the disease. It is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in its favor. For sale by Shoemaker & Co.

Forty-five Years' Suffering

GENTS: For forty-five years I have been afflicted with blood poisoning, liver, rheumatic difficulties. Part of the time confined to my bed. My blood was badly diseased. Six bottles of Hibbard's Rheumatic Syrup did me more good than all the other medicines I have taken. My friends have used it and in every case it has proved a wonderful remedy. I have known of some wonderful cures of dyspepsia and neuralgia.

Mrs. M. M. Hibbard, Mitchellville, Mich. Hibbard's Rheumatic Syrup and plasters are remedies of great merit. I believe they have to equal in the cure of rheumatism and blood diseases.

Dr. H. Richardson, Druggist, Mitchellville, Iowa.

The Spring is the time to take Hibbard's Rheumatic Syrup for the blood. For sale by all druggists. Prepared only by the Charles Wright Medicine Company, Detroit, Mich.

Epoch

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic, which is rubbed with any disease of the Kidneys or Liver or Stomach, of long or short standing, you will surely find the use of Electric Bitters. Sold at 50c and \$1 per bottle at W. P. Pinner's drug store.

The Pulpit and the Stage

Rev. P. M. Shroot, pastor United Brethren Church, Blue Mound, Kansas, says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures what every thing else fails. The greatest kindness I can do my many thousands of friends is to use them to try it. Free trial bottles at W. P. Pinner's drug store. Regular sizes 50c and \$1."

Families not already supplied should

lose no time in procuring a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the only remedy that can always be depended upon for bowel complaint in all its forms. 25 and 50 cent bottles for sale by Shoemaker & Co.

Advice to Mothers

Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It cools the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

FARMING MACHINERY.

Recent Wonderful Improvements in the Same.

A visit this morning, in company with Seymour Bryant, to the ranch of Andrew Leitch, on the Virginia road, where a "Deering all-steel self-binder" was at work in a field of wheat, made this reporter realize that the agricultural world is rapidly passing him. The above machine was manufactured in Chicago and belongs to Mr. Bryant, who, besides his own grain, is able to cut the crop of many of his neighbors. Not having time to make an examination of this remarkable invention, this scribe is unable to give it the notice which its wonderful work merits, but it is safe to say that a more ingenious piece of machinery was never invented for the use of the farmer. It can be so adjusted that it binds straw from one to five feet in length, and the part of the machinery which ties the knot never seen a self-binder work should not fail to visit a field where this or some similar one is in active use.

PELL FROM A TRAIN

On the Way From Truckee to Boda

The Truckee Republican of the 20th inst. says: A man named L. Reichert got on train No. 1 at this place yesterday morning intending to go to Boda. He took a seat on the steps, and when the train went around the sharp curve at Martins Creek the car gave a sudden lurch and Reichert was thrown off, striking the ground with violence. The accident was reported to Truckee and the yard engine and a coach went down and picked him up. An examination showed a fracture of the leg at the ankle and a dislocation of the ankle. There were also serious cuts about the head and face. Dr. McCurdy attended the man and dressed the wounds. Reichert was sent to the County Hospital at Nevada City.

COMMENDABLE CANDOR

Luck and Gall Put Hon. John P. Jones Where He Is

Some newspaper has asked the various Senators what was essential to political success.

Most of them write unoriginal and hackneyed replies. A man, they said, must be honest, upright, truthful and able. Everybody knows that this is all nonsense. Jones of Nevada gave a characteristic reply and said that he attributed most of his success to "luck and gall." That he is able to one questions, but he was candid enough to acknowledge that his ability would not have landed him but for his luck and gall.

Connecticut All Right

The report that Connecticut was likely to lose a Congressman by the new enumeration, according to a Hartford dispatch, is not sustained by the present appearance of the returns. Towns having in 1880 about one-fifth of the population of the State have been reported for 1890 and show an increase from 130,417 up to 172,190.

Served Him Right

Charles Robbins drew a revolver and shot dead a parrot that called after him. "Is this hot enough for you?" as he was walking the streets of St. Louis during one of the fever days of last week. By this act of raveny this obscure citizen becomes known to the country at large. What does he want?

Stabbing at Ely

Jack Bliss, a white man, was stabbed in several places by an Indian at Ely, White Pine county, on August 10th. The Indian then got possession of a pistol, and would have shot other persons had the weapon not missed fire. There was strong talk of lynching the murderer, who is now in jail.

A Colored Man's Bank

In Birmingham, Ala., negroes have organized a bank with \$50,000 capital, divided into 2,000 shares of \$25 each, payable monthly. This is the first institution of the sort. It is exclusively a color of concern, all the stockholders, directors and officers being negroes.

United States Soldiers

This morning a detachment of troops consisting of one man from each company of the Tenth United States Infantry, under the command of Lieutenant Weaver, arrived from Monterey, Cal., and left this afternoon for Fort Well.

Improved by Sunlight

Experiments recently made in Spain shows that sunlight has an important action in maturing wines. Layers of new wine in bottles of colored glass have been exposed to the direct rays of the sun, with the result that both the flavor and the quality have been improved.

Blackmail About

The Carson Appeal says: "Several married men have been compelled to pay hush money to a woman in this city recently. There is talk of a Grand Jury investigation."

What have your married men been doing?

Public School Commencement

Professor Ring informs the GAZETTE that the Reno public schools will open on Monday next. The reason of commencing thus early is to allow a recess of a week during the State Fair.

A Fine Number

THE WEEKLY GAZETTE AND STOCKMAN, published to-day, is a fine number. The GAZETTE and STOCKMAN is gaining fresh laurels every day.

My New Quarters

My patrons are hereby notified that I have moved my cigar and tobacco business from the Coates building to my new store next to John Sanderland's clothing department, where I will be pleased to see all in want of my line of goods.

Extraordinary Bargains

This week only will be sold silk parasols at 75 cents and ladies nicely trimmed chemise at 25 cents.

G. E. MEICH

Of the Nevada Dry Goods Carpet Store.

BEHAVIOR.

Local and General Intelligence.

Read the A. O. U. W. 50-cent ad.

Beautiful sunsets nearly every evening now.

Steers will be very scarce this fall around the feeding places.

The Carson Tribune reports a dangerous wild in that village.

It is thought John Forbes will seek a re-nomination as State Senator from Esmeralda county.

The state cases for the State Fair have all been filled. An intensely interesting program.

Miss Grace McAfee is announced as a candidate for School Superintendent of Esmeralda county.

Joe Marzen of Lovelock intends taking his short horn herd of cattle to the World's Fair at Chicago.

Hugh Darrah and J. R. Harvey were elected delegates to the Republican State Convention from Paradise Valley, Humboldt county.

By observing the figures on Thomas Barnett's stock of men's and boys' clothing and furnishing goods, you will see that he means what he says when he claims to be selling out.

By reading an item under the head of born in to-day's paper you will see why Eugene Leavre of the Toronto Restaurant remembered the GAZETTE force with a box of fine cigars.

The Carson Appeal and Tribune have won their suit against the State for publishing the special election proclamation last winter. The judgment was for the full amount asked for, with costs of suit.

N. D. Mussey of Wadsworth, who came down from Truckee this morning, informed a GAZETTE reporter that before he left the above town he heard of a cutting scrape, in which a man received six or eight cuts.

A fine sample of Russian millet, raised by C. C. Morton on D. C. Wheeler's ranch, was left at the GAZETTE office to-day by Seymour Bryant, who says it is equally good for horses, horned cattle, sheep or fowls.

Boils and pimples and other affections arising from impure blood may appear at this season, when the blood is full of poisons. Sarsaparilla removes the cause of these troubles by purifying, vitalizing and enriching the blood, and at the same time gives strength to the whole system.

We have learned from Mr. Rifenborg that the reason of his early departure from Reno is that he is about to open a large photo and art studio in San Jose, Cal. Success attend the enterprise. We are sorry to lose so fine an artist, but what can't be cured must be endured.

PERSONAL

Miss Merrill returned from below yesterday.

V. C. Pease, the mail contractor, was in town this morning.

Superintendent Logan of the Brunswick Mill was in town last evening.

C. A. Richardson, the Commercial traveler, is here on a visit to his family.

Mrs. G. W. Mapes arrived yesterday from an extended visit to San Francisco.

C. C. Powning went to Virginia this morning to look after his gubernatorial interests.

Mrs. Dr. Hogan has returned from an extended visit to friends in Oakland, Cal.

Mrs. G. H. Fonda of Oakland, Cal., the guest of Mrs. A. O. Porter, is on a visit to Reno friends.

Mrs. Sarah Gregg left yesterday for Tuscarora, where she went to visit a daughter, Mrs. Desmond.

T. K. Hymers, wife and daughter and Mrs. John Fraser left yesterday on a camping trip to the lakes.

W. S. Bender went to Carson this morning to accept the Deputyship to the State Treasurer. Mrs. Bender will remain in Reno.

J. W. Oatman and wife came from Sacramento this morning enroute to Long Valley on a visit to the family of J. M. Rhodes.

T. B. Holmes, who has been doing business in Reno the past year and who has made many friends here, left this morning for Oakland, where he will take a course of study at the California College.

ARBITRATION SUGGESTED.

The Czar of Russia To Be the Arbitrator.

It is to be sincerely hoped that the United States will accept Great Britain's proposition to arbitrate the differences between that country and this on the subject of the fisheries in Behring Sea. At the same time, says the Salt Lake Tribune, it will be well to keep in mind that Great Britain has never proposed an arbitration of that kind when she has felt that she was in the right and had the best of the situation. Keeping that in mind, the United States should be most careful in selecting what powers shall arbitrate the matter. We submit again that the Czar of Russia be invited to act as judge, with powers given him to send for witnesses and papers.

Largest Water Tank in the World

According to the Allanaad Pioneer, the largest reservoir or pond at lake in the world is the great tank of Dhebar, twenty miles south of Udaipur Rajpootana, which covers an area of twenty-one square miles. The extraordinary dam is 1,000 feet long by 75 feet high, fifty feet wide at the base and fifteen feet at the top.

Encouragement for the Female

So long as the falling embers of vitality are capable of being rekindled into a warm and genial glow, just so long there is hope for the weak and emaciated invalid. Let him not, therefore, despair, but derive encouragement from this and the further fact that there is a restorative most potent in renewing the debilitated powers of a broken down system. Yes, thanks to its unexampled tonic virtues, Host's Stomach Bitters is daily reviving strength and hope to the bodies and souls of the feeble and nervous. Appetite, refreshing sleep, the acquisition of flesh and color, are blessings which this priceless invigorant speedily initiates and carries to a successful conclusion. It is a restorative most potent in renewing the debilitated powers of a broken down system. REPUBLICAN
STATE CONVENTION!

OFFICE OF
REPUBLICAN STATE CENTRAL COMMITTEE,
VIRGINIA CITY, NEV., May 20, 1890.

REPUBLICAN STATE CONVENTION

VIRGINIA CITY,

Thursday, Sept. 4, 1890,

At 2 o'clock, p. m., for the purpose
of nominating a full State
ticket, viz:

- Member of Congress.
Governor.
Lieutenant Governor.
Judge of the Supreme Court,
Clerk of the Supreme Court,
Attorney General.
Secretary of State.
State Controller.
State Treasurer.
Surveyor General.
State Printer,
Superintendent of Public In-
struction.
Four Judges of the District
Court.
Ten Members of Board of Re-
gents State University.
Also for the appointment of a
State Central Committee.

The basis of representation of the re-
publican party is as follows: Each
county shall have one delegate for
each fraction of 15 votes or over cast
for the Harrison and Morton Elector,
aggregating 146 delegates, apportioned as follows:

Charlottesville county	2
Douglas	5
Elko	16
Esmeralda	10
Kearney	14
Humboldt	7
Lander	7
Lincoln	7
Yuba	4
Ormsby	11
Sierra	11
Washoe	18
White Pine	18
Total	146

The several Republican County Central
Committees will call a

PRIMARY ELECTION

Of the People on

Saturday, Aug. 16, 1890,

For the purpose of electing delegates to
the said State Convention, the Primary
Elections to be held on the 16th day of
August, 1890, at the office of the
County Central Committee.

The following text will be required of
each and every voter at the said
elections:
"I am a citizen of this State and will
support the nominees of the Republican
party."

The following Resolutions were
unanimously adopted:

Resolved, That this committee re-
solves the same as a National Republi-
can platform for 1888, including the
declaration that "the Republican party
is in favor of the use of both gold and
silver as money and that it con-
demns all efforts to demonetize silver."

Resolved, That the persistent neglect
of a Secretary of the State to increase
the amount of silver to the maximum of
four million dollars per month, coupled
with his attempt to influence
Congressional legislation so as to
perpetuate silver demonetization, is a
shameless violation of the silver plank
of the National Republican platform,
and an attack on the rights and interests
of the miners, farmers and workers of
this land, and an act of party profrdity
that should call for his retirement
from the councils of an administration
which is pledged to help and not hinder
the demonetization of silver.

Resolved, That the Republican
party is in favor of free and unlimited
coinage of both gold and silver; that
it holds to this principle as a test
of party faith and a test of party
loyalty; that it will permit of no
amendment or modification of this
principle; that let whoever will
prove recreant to the principle of
bimetallism it will remain steadfast
thereon, and that it invites all voters in
this State to support the Republican
State Convention.

F. D. BOYLE, Chairman.
C. F. LOAN, Secretary.

PECULIAR CURRENCY.

Some Strange Substitutes for Money in
Early Days.

There was a time when neither coin
nor even metals in the rough were in
use among mankind as a circulating
medium, says Golden Days. Numis-
matics, as a rule, go no farther back than
800 or 900 years before the Christian era
to the stamped pieces of metal circu-
lated among the Greeks and Lydians.

It may be of interest to glance at some
of the early forms of currency and at
the strange substitutes for money still
in use among barbarous people.

The earliest substitute for coin cur-
rent used by man is believed to have
been the skins of animals. This me-
dium of exchange was employed by the
ancient Russians and also by the first
settlers of this country. Certain tribes
of the Alaskan Indians to-day use the
pelt of bears and foxes for currency.

The pastoral age succeeded the hunt-
ing-age, and men began to use animals
themselves instead of their skins for a
circulating medium.

The animals principally employed
were sheep and oxen, their relative
value being determined by the ancient
Romans at ten sheep for one ox, which
standard is still recognized among the
Mongol tribes. Traces of this custom
are still visible in the Irish and Ice-
landic laws.

Among the early Teutonic races fives
were often paid in cattle, and the Zulus
and the Kafirs in this year of grace
make use of this old-time medium.

A direct link between this practice
and the use of metal coins for mon-
ey is found in the currency of the early
Romans, who used pieces of brass called
from a mass.

Later, in the time of Servius Tullius,
the brass was coined and marked with
the figure of an ox. An interesting lit-
tle bit of etymological lore is connected
with this custom, for the Latin word
for money, pecunia—whence our modern
term pecuniary—was derived from pecus,
cattle.

Metal money was used, however, long
before the time of the Romans. As far
back as the days of Abraham the Egyp-
tians used gold and silver for currency.
It was counted by weight and not by
face value.

The Hebrews had "jewel money" in
addition to shekels and talents and
drachms of gold and silver. On the
Egyptian tombs gold is represented as
being weighed in rings for commercial
purposes; rather an improvement, it
may be considered, on the earlier metal
lump.

Before the introduction of coined
money into Greece, shekels or spikes
of iron and copper constituted the cur-
rency, six making a drachm or handful.

In certain parts of Central Africa iron
spikes are still used after the Spartan
fashion; and, according to Adam Smith,
it was not so long ago that nails were
used as a subsidiary coin in Scotland.

Hence, perhaps, we obtain the term
"penny nail"—i. e., ten for a penny.

The currency of the Aztecs consisted
of transparent quills of gold-dust, of
bits of tin in the form of a T, and of
bags of cocoa containing a specified
number of grains.

The earliest coinage in America was
the famous "hog-money," made in 1619,
for the Virginia Company at the Span-
ish Islands, now the Bermudas. The
coin was of brass, with the legend
"Sommer Island," and a "hogge on one
side, in memory of the abundance of
hoggies which were found on their first
landing."

The currency of the early colonists was
a very mixed one. At one time musket
balls passed for change at a farthing
apiece, and were a legal tender for sum-
mer under a shilling. Tobacco and tobacco
receipts were also legal tender, and
corn, beans, codfish and potteries were
likewise employed.

Wampum, the shell-bead money of the
Indians, was the currency most in use,
however, being accepted by the colon-
ists as a convenient token.

There were two kinds of this shell
money—"wampumag," which was
white, and made from the conch or por-
tland, and "suckanhook," which was
dark purple, and made from the hard-
shell clam.

The purple was worth twice as much
as the white. The shell was broken in
pieces, rubbed smooth on a stone till
about the thickness of a pipe-stem, then
pierced with a drill and strung into
necklaces, bracelets and belts.

The English, French and Dutch set-
tlers all used wampum, the value being
fixed in 1640 at six beads for a penny.
The strings were called fathoms, and
varied in value from five to ten shil-
lings.

The list of what may be termed curi-
ous money is an extensive one. Salt is
used in Abyssinia and whales' teeth in
the Feejee Islands.

In some of the South Sea Islands red
feathers form the currency. Among the
native Australians greenstone and red
ochre are used.

Female slaves form the standard of
value in the retired districts of New
Guinea.

The strangest coin of all, however, is
the ideal money spoken of by Monte-
quieu as being found in certain parts of
Africa. This singular currency is called
"a confie," but is purely a sign of value
without a unit.
